PROFILE

I consider myself a proactive, creative person with great adaptability. I am excited about the possibility of contributing my skills and knowledge to a dynamic and challenging team. I am sure that I can make a significant contribution to the success of any company that gives me the opportunity to grow and develop professionally.

PROFESSIONAL EXPERIENCE

Committee for Recruitment and Technological Vocations

SEPTEMBER 2024 -
TODAY

CEET - Consejo Estatal de Estudiantes de Telecomunicación

- My role within the Commission for Recruitment and Technological Vocation focuses on attracting new members to the community by initiating and maintaining contact with representatives we believe may be interested in the project. However, we have several open fronts that we believe will be very fruitful, such as offering training related to our field to high schools to raise awareness of the importance of telecommunication technologies.

Workshop Assistant

JUNE 2024 -
SEPTEMBER 2024

Intress - CRL Puente de Vallecas

- My contributions focused on the Labour Adjustment Workshops, specifically in the "new technologies" workshop; a project consisting of 14 sessions in which we start from scratch and aim for users to master basic skills such as: using instant messaging applications (WhatsApp), taking photographs, writing and sending emails with an appropriate structure, browsing the internet, searching for addresses and following routes (Google Maps), creating attractive presentations using "Canva" like tools or signing documents electronically.
